ASAIO JOURNAL-VOLUME 38

Subject Index

Editor's Note: This index encompasses only the material presented in this issue of ASAIO JOURNAL Volume 38, Numbers 1, 2, and 4. Please consult the July–September issue (Vol. 38, No. 3) for an index of the contents of that body of work.

A

Apheresis, low-density lipoprotein, effect on plasma thrombomodulating factors, 102
Aspirin, influence on bovine platelet function, 830

B

Berlin Heart biventricular assist device, effects on microvasculature responses in pretransplant patients, 779
Bicarbonate dialysate, low-concentration, prevention of hypoxemia associated with hemodialysis by, 820
Bicarbonate hemodialysis, disordered breathing patterns during, in chronic obstructive pulmonary disease, 811
Bioartificial pancreas, extravascular, glucose insulin kinetics of, 851
Biofiltration, acetate free, effects on peripheral blood monocyte activation and cytokine release, 52
Biohybrid artificial organs, 7
Biventricular assist device, Berlin Heart, effects on microvasculature responses in pretransplant patients, 779
Bladder box system, venous control device *versus,* for extracorporeal membrane oxygenation, 835
Blood flow, muscle, effect of skeletal muscle ventricle pouch pressure on, 66
Blood-gas parameters, effect of endotoxin clearance using whole body rinse-out on, in rats, 815
Breathing patterns, disordered, during bicarbonate hemodialysis, in chronic obstructive pulmonary disease, 811

C

Carbacyclin, influence on bovine platelet function, 830
Carbon dioxide, peritoneal transfer of, in rat, 823
Cardiac failure, extracorporeal membrane oxygenation in, 751
Cardiac output, regulation in moving actuator total artificial heart without compliance chamber, 846
Cardiac pathology, following resuscitative circulatory support, 75
Cardiopulmonary bypass, direct mechanical ventricular activation *versus,* cardiac pathology following, 75
Catheters
  large bore, frequency, therapy, and prevention of infections associated with, 96
  silicone, dacron-cuffed, as long-term hemodialysis access, 55
Cerebrospinal fluid glucose biosensor, for diabetes mellitus, 82
Chromaffin cell transplants, in chronic pain, 24
Chronic obstructive pulmonary disease, disordered breathing patterns during bicarbonate hemodialysis in, 811
Circulatory support, resuscitative, cardiac pathology following, 75
Complement, *in vitro* activation by polyacrilonitrile dialyzer membrane, assay by complement binding to bystander red cells, 47
Cuprophane membranes, disordered breathing patterns during bicarbonate hemodialysis in chronic obstructive pulmonary disease and, 811
Cytokine release, in peripheral blood, acetate free biofiltration and, 52

D

Diabetes
  hybrid artificial pancreas in, 29
  microencapsulated pancreatic human islets and, 34
  type I, high probability of near term "cure" for, 73
Diabetes mellitus, cerebrospinal fluid glucose biosensor for, 82
Dialysis, oxalate removal by differing techniques of, 797
Dialysis membranes
  cuprophane, disordered breathing patterns during bicarbonate hemodialysis in chronic obstructive pulmonary disease and, 811
  polymer alloy, with varying permeabilities and sievings, 784
  polysulfone, disordered breathing patterns during bicarbonate hemodialysis in chronic obstructive pulmonary disease and, 811
Direct mechanical ventricular activation, cardiopulmonary bypass *versus,* cardiac pathology following, 75

E

Endotoxin clearance, using whole body rinse-out on, effect on blood-gas and metabolic parameters in rats, 815
End-stage renal disease, choosing treatment modality for, 1
Extracorporeal life support, for respiratory failure, 754
Extracorporeal membrane oxygenation
  in cardiac failure, 751
  circuit for, placement of hemofiltration circuit in relation to, 801
  specialists in, identification and certification of, 858
  venous control device *versus* bladder box system for, 835
Extravascular bioartificial pancreas, glucose insulin kinetics of, 851

G

Glucose biosensor, cerebrospinal fluid, for diabetes mellitus, 82
Glucose insulin kinetics, of extravascular bioartificial pancreas, 851
Glutathione, red blood cell membrane oxidative damage and, in patients on hemodialysis, 855

ASAIO JOURNAL-VOLUME 38

Subject Index

Editor's Note: This index encompasses only the material presented in this issue of ASAIO JOURNAL Volume 38, Numbers 1, 2, and 4. Please consult the July–September issue (Vol. 38, No. 3) for an index of the contents of that body of work.

A

Apheresis, low-density lipoprotein, effect on plasma thrombomodulating factors, 102
Aspirin, influence on bovine platelet function, 830

B

Berlin Heart biventricular assist device, effects on microvasculature responses in pretransplant patients, 779
Bicarbonate dialysate, low-concentration, prevention of hypoxemia associated with hemodialysis by, 820
Bicarbonate hemodialysis, disordered breathing patterns during, in chronic obstructive pulmonary disease, 811
Bioartificial pancreas, extravascular, glucose insulin kinetics of, 851
Biofiltration, acetate free, effects on peripheral blood monocyte activation and cytokine release, 52
Biohybrid artificial organs, 7
Biventricular assist device, Berlin Heart, effects on microvasculature responses in pretransplant patients, 779
Bladder box system, venous control device *versus,* for extracorporeal membrane oxygenation, 835
Blood flow, muscle, effect of skeletal muscle ventricle pouch pressure on, 66
Blood-gas parameters, effect of endotoxin clearance using whole body rinse-out on, in rats, 815
Breathing patterns, disordered, during bicarbonate hemodialysis, in chronic obstructive pulmonary disease, 811

C

Carbacyclin, influence on bovine platelet function, 830
Carbon dioxide, peritoneal transfer of, in rat, 823
Cardiac failure, extracorporeal membrane oxygenation in, 751
Cardiac output, regulation in moving actuator total artificial heart without compliance chamber, 846
Cardiac pathology, following resuscitative circulatory support, 75
Cardiopulmonary bypass, direct mechanical ventricular activation *versus,* cardiac pathology following, 75
Catheters
  large bore, frequency, therapy, and prevention of infections associated with, 96
  silicone, dacron-cuffed, as long-term hemodialysis access, 55
Cerebrospinal fluid glucose biosensor, for diabetes mellitus, 82
Chromaffin cell transplants, in chronic pain, 24
Chronic obstructive pulmonary disease, disordered breathing patterns during bicarbonate hemodialysis in, 811
Circulatory support, resuscitative, cardiac pathology following, 75
Complement, *in vitro* activation by polyacrilonitrile dialyzer membrane, assay by complement binding to bystander red cells, 47
Cuprophane membranes, disordered breathing patterns during bicarbonate hemodialysis in chronic obstructive pulmonary disease and, 811
Cytokine release, in peripheral blood, acetate free biofiltration and, 52

D

Diabetes
  hybrid artificial pancreas in, 29
  microencapsulated pancreatic human islets and, 34
  type I, high probability of near term "cure" for, 73
Diabetes mellitus, cerebrospinal fluid glucose biosensor for, 82
Dialysis, oxalate removal by differing techniques of, 797
Dialysis membranes
  cuprophane, disordered breathing patterns during bicarbonate hemodialysis in chronic obstructive pulmonary disease and, 811
  polymer alloy, with varying permeabilities and sievings, 784
  polysulfone, disordered breathing patterns during bicarbonate hemodialysis in chronic obstructive pulmonary disease and, 811
Direct mechanical ventricular activation, cardiopulmonary bypass *versus,* cardiac pathology following, 75

E

Endotoxin clearance, using whole body rinse-out on, effect on blood-gas and metabolic parameters in rats, 815
End-stage renal disease, choosing treatment modality for, 1
Extracorporeal life support, for respiratory failure, 754
Extracorporeal membrane oxygenation
  in cardiac failure, 751
  circuit for, placement of hemofiltration circuit in relation to, 801
  specialists in, identification and certification of, 858
  venous control device *versus* bladder box system for, 835
Extravascular bioartificial pancreas, glucose insulin kinetics of, 851

G

Glucose biosensor, cerebrospinal fluid, for diabetes mellitus, 82
Glucose insulin kinetics, of extravascular bioartificial pancreas, 851
Glutathione, red blood cell membrane oxidative damage and, in patients on hemodialysis, 855

H

Heart, total artificial
moving actuator, without compliance chamber, regulation of cardiac output in, 846
Symbion, functional status of recipients after transplantation, 804
sympathetic nerve discharges and, fundamental rhythm of, 91
Utah-100, animal implantation results with, 108
Hemodiafiltration, without replacement fluid, 61
Hemodialysis
hypoxemia associated with, prevention by low-concentration bicarbonate dialysate, 820
red blood cell membrane oxidative damage and, glutathione and, 855
Hemodialysis access
current strategies for, 743
long-term, dacron-cuffed silicone catheters as, 55
for maintenance hemodialysis, surgery for, hospital stay variables and, 113
Hemodialyzer, quantitation of comparative thrombogenicity of dog, pig, and human platelets in, 88
Hemofiltration circuit, placement in relation to, extracorporeal membrane oxygenation circuit, 801
Hepatocytes, from rat liver perfusions, 841
Hybrid artificial cells, microencapsulation of living cells and, 128
Hybrid artificial pancreas, in diabetic dogs, 29
Hypoxemia, associated with hemodialysis, prevention by low-concentration bicarbonate dialysate, 820

I

Implantable pumps
for chronic infusion, 3
progress and future advances and, 772
Infections, associated with large bore catheters, frequency, therapy, and prevention of, 96
Intra-aortic balloon, rupture of, 862
Intravascular oxygenation, for advanced respiratory failure, 120
Intravenous infusion pumps, accuracy in continuous renal replacement therapies, 808
Islets, porcine, microencapsulated, *in vitro* and *in vivo* evaluation of, 125

L

Left ventricular assist device, magnetically actuated, 38
Low-density lipoprotein apheresis, effect on plasma thrombomodulating factors, 102

M

Metabolic parameters, effect of endotoxin clearance using whole body rinse-out on, in rats, 815
Microencapsulated islets
human, diabetes and, 34
porcine, *in vitro* and *in vivo* evaluation of, 125
Microencapsulation, of living cells, hybrid artificial cells and, 128
Microvasculature responses, in pretransplant patients, effects of Berlin Heart biventricular assist device on, 779
Monocyte activation, in peripheral blood, acetate free biofiltration and, 52
Moving actuator total artificial heart, without compliance chamber, regulation of cardiac output in, 846
Muscle blood flow, effect of skeletal muscle ventricle pouch pressure on, 66

N

Nafamstat mesilate, clinical evaluation as anticoagulant for plasmapheresis, 59
Neurotransmitter secreting cells, polymer encapsulated, 17

O

Oxalate, removal by differing dialysis techniques, 797
Oxygenation
extracorporeal membrane
in cardiac failure, 751
circuit for, placement of hemofiltration circuit in relation to, 801
specialists in, identification and certification of, 858
venous control device versus bladder box system for, 835
intravascular, for advanced respiratory failure, 120

P

Pain, chronic, chromaffin cell transplants in, 24
Pancreas
artificial, hybrid, in diabetic dogs, 29
bioartificial, extravascular, glucose insulin kinetics of, 851
Pancreatic islets, human, transplantation for therapy of diabetes mellitus, 34
Parkinson's disease, polymer encapsulated neurotransmitter secreting cells and, 17
Peer review, 6
Peripheral blood, monocyte activation and cytokine release in, acetate free biofiltration and, 52
Peritoneal dialysis
simple membrane models for, 788
uremia and, 745
Plasmapheresis
anticoagulant for, clinical evaluation of nafamstat mesilate as, 59
clinical evaluation of nafamstat mesilate as anticoagulant for, 59
Plasma thrombomodulating factors, effect of low-density lipoprotein apheresis on, 102
Platelets
bovine, influence of aspirin and carbacyclin on function of, 830
of dog, pig, and human, comparative thrombogenicity in hemodialyzer, 88
Polyacrilonitrile dialyzer membrane, *in vitro* complement activation by, assay by complement binding to bystander red cells, 47
Polyepoxy compound, sterilization of small caliber vascular graft with, 116
Polymer alloy dialysis membranes, with varying permeabilities and sievings, 784
Polyribosomes, size of, hepatocytes from rat liver perfusions and, 841
Polysulfone membranes, disordered breathing patterns during bicarbonate hemodialysis in chronic obstructive pulmonary disease and, 811

Pretransplant patients, microvasculature responses in, effects of Berlin Heart biventricular assist device on, 779
Pumps
implantable
for chronic infusion, 3
progress and future advances and, 772
intravenous infusion, accuracy in continuous renal replacement therapies, 808

R

Red blood cells, membrane oxidative damage in patients on hemodialysis, glutathione and, 855
Renal disease, end-stage, choosing treatment modality for, 1
Renal replacement therapies, continuous, accuracy of intravenous infusion pumps in, 808
Respiratory failure
advanced, intravascular oxygenation for, 120
extracorporeal life support for, 754

S

Silicone catheters, dacron-cuffed, as long-term hemodialysis access, 55
Skeletal muscle ventricle pouch pressure, effect on muscle blood flow, 66
Solute transport, in peritoneal dialysis, simple membrane models for, 788
Sterilization, of small caliber vascular graft, with polyepoxy compound, 116
Symbion total artificial heart, functional status of recipients after transplantation, 804
Sympathetic nerve discharges, total artificial heart and, fundamental rhythm of, 91

T

Tissue injury, mechanisms of, in hyperacute xenograft rejection, 8
Total artificial heart
moving actuator, without compliance chamber, regulation of cardiac output in, 846
Symbion, functional status of recipients after transplantation, 804
sympathetic nerve discharges and, fundamental rhythm of, 91
Utah-100, animal implantation results with, 108

U

Uremia, peritoneal dialysis and, 745
Utah-100 total artificial heart, animal implantation results with, 108

V

Vascular access, for hemodialysis
current strategies for, 743
long-term, dacron-cuffed silicone catheters as, 55
maintenance, surgery for, hospital stay variables and, 113
Vascular access surgery, for maintenance hemodialysis, hospital stay variables and, 113
Vascular graft, small caliber, sterilization with polyepoxy compound, 116
Venous control device, bladder box system *versus*, for extracorporeal membrane oxygenation, 835

X

Xenografts, hyperacute rejection of, tissue injury mechanisms and, 8

STATEMENT OF OWNERSHIP, MANAGEMENT AND CIRCULATION (Act of August 12, 1970: Section 3685. Title 39 United States Code) Date of Filing—October 1, 1992; Title of Publication—ASAIO Journal; Publication No.—08897190; Frequency of Issue—Quarterly; Annual Subscription Price—$160.00; Location of Known Office of Publication—100 Insurance Way, Suite 114, Hagerstown, MD 21740; Location of the Headquarters or General Business Offices of the Publisher—227 East Washington Square, Philadelphia, PA 19106; Publisher—American Society for Artificial Internal Organs, Inc., P.O. Box C, Boca Raton, FL 33432; Editor—Eli A. Friedman, MD, Box 52, Downstate Medical Center, 450 Clarkson Avenue, Brooklyn, NY 11203; Managing Editor—Lynda Krumpholz, 227 East Washington Square, Philadelphia, PA 19106; Owner—American Society for Artificial Internal Organs, Inc., PO Box C, Boca Raton, FL 33432; Known Bondholders, Mortgagees, and other security holders owning or holding 1 percent or more of total amount of bonds, mortgages, or other securities—None. A. Total no. copies printed (*net press run*), average 3113, actual 3500; B. Paid circulation 1. Sales through dealers and carriers, street vendors and counter sales, average none, actual none; 2. Mail subscriptions, average 2484, actual 2520; C. Total paid circulation, average 2484, actual 2520; D. Free distribution by mail, carrier or other means. Samples complimentary, and other free copies, average 64, actual 59; E. Total distribution (*sum of C and D*), average 2548, actual 2579; F. Copies not distributed 1. Office use, leftover, unaccounted, spoiled after printing, average 565, actual 921; 2. Returns from news agents, none; G. Total (*sum of E and F—should equal net press runs shown in A*), average 3113, actual 3500. I certify that the statements made by me above are correct and complete. J. W. Lippincott, *Vice President.*
